

Table No 2: 2008 Nitrogen Dioxide Levels

	Burscough Street	Southport Road	Moor Street	Chequer Close	Halsall Lane	Stanley Street	Wigan Road 1	Liverpool Road Sth	Wigan Road 2
Jan-08	24.4	20	55.7	22.6	31.3	28.7	31.3	27.8	24.4
Feb-08	48.7	39.2	79.2	36.5	48.7	40.9	47	47	42.6
Mar-08	27	21.8		28.7	36.5			37.4	34.8
Apr-08	31.3	20.9		32.2	40			34.8	30.5
May-08	40.9	27		22.6	35.7			30.5	41.8
Jun-08	24.4	16.5		27.8	37.4			36.5	28.7
Jul-08	27	18.3		20.9	29.6			33.1	26.1
Aug-08	20.9	15.7		20.9	Missing			31.3	22.6
Sep-08	37.4				45.2			43.5	40
Oct-08	20				37.4			36.5	29.6
Nov-08	31.3				47.9			40.9	40
Dec-08	44.4				55.7			40.9	42.6
Total	377.7				445.4			440.2	403.7
Average	31.5				40.5			36.7	33.6

Results have been corrected for tube bias using a factor of 0.87 as per DEFRA advice

The sites at Moor Street, Stanley Street and Wigan Road 1, have been taken out of the routine monitoring programme to form part of a more detailed investigation. When this investigation has been completed the results will be made publicly available.

Southport Road and Chequer Close sites have given consistently low results for several years and were removed from the survey in September 2008.

Note: The Halsall Lane site has slightly exceeded the 40 ug/m³ annual limit for Nitrogen Dioxide. This site will require further investigation throughout 2009.
